RE: Reference Letter for the Carson City SOQ for Engineering and Land Surveying

Dear Erik,

It has always been a pleasure working with you on previous projects. I am pleased to write this letter of reference concerning your prior work history with the City of Sparks. I have worked with you on many occasions primarily during your tenure at TRC Engineers Inc, but also with your current Engineering and Land Surveying Company, Battle Born Ventures.

You have always exhibited work ethic above and beyond what has been expected, are easy to work with, and go through great extents to ensure all projects are completed on time and under budget. Your Engineering and Land Surveying services are always thorough, concise, and of the utmost quality. If a problem arises, you have always worked hard to remedy the problem in a professional manner, getting all entities involved to come up with the best possible solution.

I feel that Battle Born Ventures, LLC will provide outstanding quality and professionalism for any Engineering and Land Surveying services they provide. It is my hope that you will be considered for the short list of the SOQ and will have the ability to showcase your company's abilities. I feel you will provide a great service to Carson City residents.

Please feel free to call me with any questions.

Sincerely,

A handwritten signature in blue ink that reads "Brian D. Cason".
